

Quick Reference Guide Template for UC One Application

Installation on a Phone or Tablet

1. Go to Google Play or the Apple App Store.
2. Apple Store Search for “**UC-One Communicator NPS**”. Google Play search for “**UC-One Communicator**” by BroadSoft.
3. Select “GET” or “Download and installation”.
4. Start the app...
5. The Epik device configuration or server address is **<https://cloud1.epiknetworks.com>**
6. The client also asks for a user name and password. For this, use your Epik Broadworks / User Webportal login credentials. If you don't have this login, [contact Support](#) and they'll help you.

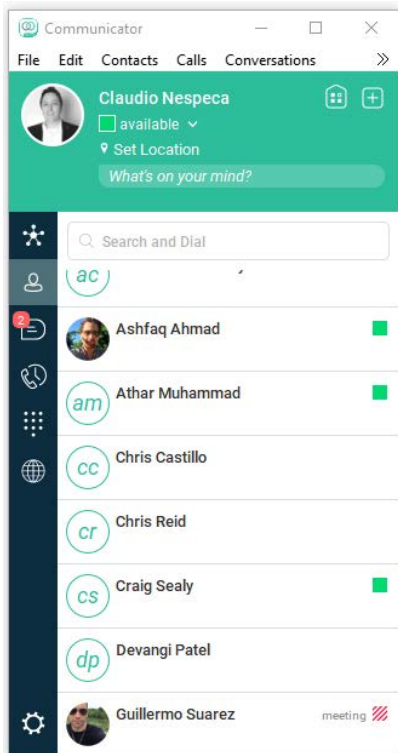

Installation on a Desktop

1. **The Desktop client is available at:**
<https://www.epiknetworks.com/support/uc-one-desktop-app/>
2. Click on *the UC One for MAC or PC link* and then follow the installation instructions.
3. Start the app...
The device configuration address is **<https://cloud1.epiknetworks.com>**
4. The client also asks for a user name and password. For this, use your Epik Broadworks / User Webportal login credentials. If you don't have this login, [contact Support](#) and they'll help you.

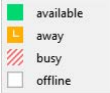

Start and Sign In

If you have enabled automatic login (*Sign-in automatically*), then after the client starts, you automatically go to your *Contact List*. If you have not enabled automatic login, then click **OK** in the *Sign-in* window. The previously-used user name is automatically remembered. The password can be automatically remembered as well.

User Interface Layout of the Desktop Client (v22)

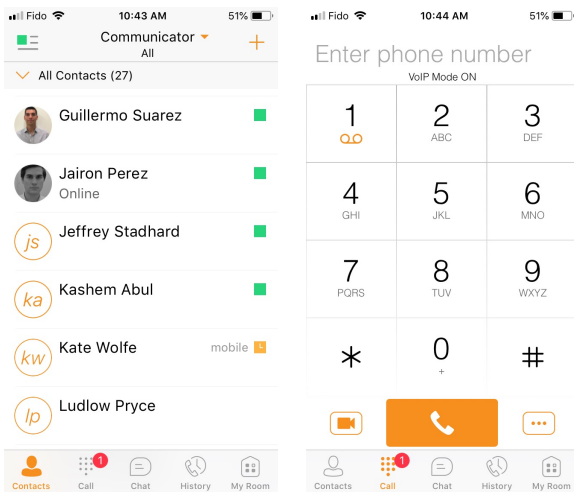

Important Icons

-  Click this left-pane icon to change your presence, including your avatar. You can also see your detailed presence.
-  *My Room* is your permanent communication room. Participants can dial in to your audio bridge.
-  Click this left-pane icon to view your contacts.
-  Click on *History* view in the left pane to look at previous chats and calls. You can easily start communications here.
-  Show all contacts in the full enterprise directory.
-  Use the dial pad to send DTMF tones, such as conference PINs.
-  Use *Filters* in the contact list to see only online, favorite, or conference contacts.
-  Start a chat session.
-  Make a call using the Desktop client (VoIP call).
-  Make a call using your desk phone.
-  Make a video call.

When you start the client for the first time, your contact list is empty. You can use the search field to find people and then directly add them from the search results to populate your Contact List. You can also manually add contacts using the **Add Contact** button. Watch the **UC-One Desktop App Support Vids** or the **Mobile App Support Vids**

User Interface Layout of the iOS Client

The **Contacts** tab displays your buddies, local, and directory contacts. You can add, edit, and delete buddies, or search for contacts in the enterprise directory.

The **Call** tab displays the dial pad. From the dial pad, you can call any given number. A long press on "1" on the numeric pad calls your voice mail.

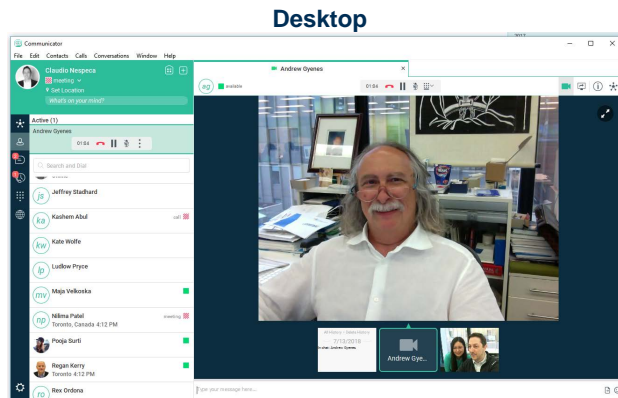

The **Chat** tab shows chat messages. You can exchange chat messages with other users.

The **Call History** tab shows your call history. You can filter between all calls and missed calls.

Making Audio and Video Calls

You can make audio and video calls from the:

- Contact list
- Contact card
- Call history
- Dialer

During a call you can:

- Adjust the volume.
- Provide (DTMF) tones.
- Mute the microphone.
- Put a call on hold.

Adjust Desktop Client Microphone and Loudspeaker Settings

In the desktop client, to choose an audio device, you choose Options in the bottom left corner, and Audio/Video from the dropdown.

You can also select a different default audio device in Windows using the Control Panel. On Mac, it is in the System preferences for "Sound".
